### Web Developer / BrightCoders

Bootcamp oriented to Ruby on Rails in which a web application was developed as the final product. In this case, an application called PetCare was developed, which is a reservation system for pets, similar to the functionality of Airbnb but for pets. The links for the repository and deployed application are as follows:

Tech stack: HTML, CSS, JS, Ruby, Rails, Postgresql

App: <https://petcare-test.herokuapp.com/>

Repository: <https://github.com/BC-MAY-21-ROR/proyecto-final-pf-f22-t4>

11/08/2016 – 20/01/2022

### Technical support/ Voltech

Technical support for computers, laptops and cell phones, corrective and preventive.
